Offer Innovations, developments and ideas

Metalworking

For the production of a newly developed device, we are looking for a reliable and efficient cooperation partner, to which we want to transfer the production of our product. (Patent law protected, registered trademark)

The prerequisite for this is the following production possibilities:

Sheet metal processing (stainless steel 1,4301)

-lasers (series)

-CNC edges (series)

-CNC rotary and milling parts (series)

-ev. Mechanical processing of plastic plates

-Montage

-Packaging and shipping stock with the customers networked sales organization in D-A-CH, BeNeLux is ready to go.

As part of a succession plan, we are also interested in a company takeover or asset deal.
