Look for Corporate co-operation, firm cooperation

## **Heating/heat pumps**

We are a small company that specializes in the construction of heat pump systems. We plan everything from A-Z from a single source.

For expansion, we are looking for a company, a colleague, or someone who wants to become self-employed or is already. Either to further expand the heating construction sector or to position the bathroom repair division.

It is also possible that a plumbing company wants to expand the heat pump division and that we are conquering the market together.

We look forward to serious inscriptions and are always open-minded.
