Online application for property management

Berlin software house is looking for large property managers as cooperation partners for an IT project.

We have already developed an ONLINE industry solution that allows you to map all processes in a company in the industry solution.

It is a platform-independent browser-based online solution.

Our goal now is to adapt our existing application to property management, bringing all communication and data management together in a single application.

- Modular application with the following modules
- Contact Manager (tenants, cooperation partners)
- master data collection (object data, sketches, contracts, etc.)
