Offer Corporate participation, firm participation

Recruitment Healthcare

As a German-based company, we provide qualified Hungarian nursing staff against commission. Our clients are senior facilities, intensive care services and clinics.

We focus our candidates on our dedicated, self-developed website for Hungary, Facebook and other online marketing campaigns. Of course, we reach some of the interested parties through our high level of awareness and the corresponding "word of mouth."

After the acquisition of the applicants, we prepare the application documents, assess the chances of recognition of the professional qualification and determine a commission accepted on the market. After that, we will offer the applicants suitable facilities.

After the organization of the trial work by us, the institution then makes the decision about an attitude. In the aftermath, if necessary, we will accompany the recognition process together with applicants and institutions.
