Offer Corporate sales, firm sales, sales

Mechanical engineering

I rented part of an industrial hall in Cologne and there are currently 2 used milling (FP1 and FP2), 2 sinkeroding machines (Ingersoll and ERF) and a hamlet turning bench (practicing 500) as well as other material. The total sales value of the machines is more than 20,000 euros.

I also have contacts for which I can sell larger machine centers by a margin.

The company was founded in and registered in the Commercial Register with everything that goes with it (Umst.Nr, registered with the Chamber of Commerce etc.).

But I now have a new project in Switzerland, for which I want to invest all my time, so the company is for sale.

Everything can be taken over (on request also mobile phone contract, website, etc.) and the business can be operated immediately.

The lease (cost per month is 1000 euros) runs until June and can be renewed at any time.
