B2B Online Restposten Marketplace

We separate ourselves from the remaining post marketplace for wholesalers including the 10-year-old domain and the Facebook page.

Seo optimizes with many top 10 Google rankings of the most important keywords.

One-off sale.

We have invested a lot of money (programming, web designers, advertising, etc.). It was also a lot of time to attract over time to so many traders for the platform that your items offer on our platform.

We recently had the site reworked for €3500 and updated including Responsive Design.

You don't need any expertise to continue to operate this marketplace successfully. Also suitable for absolute newcomers who have no previous knowledge in the field.

Since we have moved our interests to other areas, we are now selling our online marketplace.
