Look for Corporate financing, investor **Entertainment/Entertainment**

KAPITAL for project financing secured via a trust account.

Â

We are looking for project financing 1.000.000 EURO as proof of capital for several fully developed project products. The K is paid into a trust account with an economic auditor/tax consultant and he also assumes the liability, the K stays on this TK for one year and is not touched, that is, it does not flow into the financing.

Â

The full financing is discussed and can be contractually agreed immediately if the K is proven. Â

Â

The KAPITAL will be subject to interest rates of 8% p.a. from our side and will be fully refunded within 12 months at the end of the term. Alternatively, the K can also be converted into shares in project holding at the end of the term. This needs to be discussed individually.
