Metalworking

Medium-sized metal processing company with an interesting customer base and a wide range of products is to be sold.

The company with two manufacturing facilities is based in Südwestfalen and has an extremely good connection to the Ruhr region, south and east Westphalia, as well as to Münsterland. The operation is certified according to ISO EN 1090 EXC-2.

It also addresses buyers who may already be on the market with their own products and want to secure their growth through the acquisition of manufacturing capacity. As potential buyers, companies from the industry are also conceivable who want to expand their clientele.

It is possible to take a 100% takeover but also to participate as a co-shareholder
