Business for sale more than 15 years

ID 21135

Look for Corporate follow-up, firm follow-up, follow-up **Painter operation**

For the takeover within a radius of about 60-70km, I am looking for an existing, solid and ongoing painting plant with a small to medium size of the no own family internal successor but would like to see if his Operation, as it was built, would continue in this sense as well.

I took over my one-man business from my father 17 years ago at the age of 24.

Since I am supposed to limit the physical work for health reasons (HWS) at present and in the future, I would like to enlarge myself in order to be able to continue my profession as a master painter, which I am very happy to carry out.

Grow my own business is difficult because I only work in the retail sector and these customers are used to the master working with you personally.
