Offer Corporate sales, firm sales, sales

Education institutions/employment services

An educational institution certified according to AZAV is offered. The company has been in existence since , recruits specialists for industry, especially wind energy, trains them further, and mediates them to existing cooperation partners.

The concept is also expandable, can be combined with the traditional staff transfer. Here, too, concepts are already available.

The company has two branches, one in Berlin and one in Hamburg. Sales figures range from €700,000 to €1 million, while profit ranges from €20-30%.

There are currently three permanent employees. The fixed costs are relatively manageable, and the concept is well developed. Since , there have been very good connections, networks and a good reputation in wind energy. The company is particularly suitable for companies from wind energy, or for companies that want to enter wind energy. With this company, getting started would be ideal.
