## **Care service, cures & aids**

Possibility for a long-term partnership with the German group of companies for outpatient health care.

Quality connected-Human-Owner-managed:

These are the three main features of our client. On behalf of our client, we are looking throughout Germany for outpatient & intensive care services, as well as for providers of healing and aids who are interested in joining the group of companies.

What we offer:

Our client is an outpatient healthcare utility. The leadership team has many years of experience in building and running outpatient utilities. We are looking for strong partners who are willing to hand over company shares and strengthen the group with their management team. By linking multiple care services, a steady exchange of knowledge can take place between the management teams.
