Organic bakery

The concept of a wholegrain organic bakery with a pastry shop and attached café, which has been successfully placed on the market for more than 20 years, is very popular in its catchment area.

In addition to the company's headquarters, 12 resale outlets and several public institutions are supplied daily with products 100% from their own production.

The company is the market leader in its regional catchment area and has a far national, very good reputation.

The existing, contemporary, state-of-the-art bakery with all the necessary equipment for the upscale bakery and confectionery trade offers capacities that also allow a rapid expansion of business operations to other sales and delivery points.
