## Offer Corporate sales, firm sales, sales **Social Media Service Shops**

The takeover is subject to a corporation that offers social media services via 3 web shops (2 in the German area, one in the English-speaking area), which are sourced from external service providers. This does not require any prior knowledge.

The largest of these three stores has top Google placements to very high-cost and sought-after keywords such as "Buy Instagram Followers" and "Buy Followers."

The placements are constantly improving through freelance cooperation with one of the best search engine optimizers.

In addition, there is a large loyal customer base, as well as an list with a total of more than 3000 recipients.

The services offered are 1) highly profitable and have margins ranging from 50 to over 1000%.

2) very easy and without much work, since the customer information only has to be passed on to our external service provider, which handles the delivery.

3) Increasing in demand.
