Look for Corporate co-operation, firm cooperation

Ecobiological plant fertilization

The inventor has created a development over the years with many references that he can use for agriculture, horticulture and agriculture, for large farms as well as the home garden. The product is inexpensive to manufacture and efficient in its operation. It eliminates pests, plants of all kinds get a natural strength and yields are higher. There will be no need for other fertilizers.

The inventor is looking for one or more reliable partners who, on the one hand, contribute to the construction of the production with capital and, on the other hand, who assist in the sales development.

The customers for this outstanding product are:

- End customers who grow, grow plants, gardening, ...
- Futterbaubetriebe
- Gartenbaubetriebe;
- Gemischtbetriebe
- Marktfruchtbetriebe
- Sonderkulturbetriebe
- Viehhaltungsbetriebe
- Veredelungsbetriebe

If we have aroused your interest in doing business with this excellent product, we look forward to hearing from you.
