Offer Corporate sales, firm sales, sales **Online shop dog beds**

Online shop specifically for dog beds.

The range of goods offered by this online shop includes a wide range of high-quality dog beds with artificial leather cover in different colours and shapes, various fillings and also as orthopedic (medical) dog beds with visco foam.

It is also possible to produce special measurements at the customer's request.

Due to the high margins, the shop is also to operate as a wholesale business.

This makes it possible to recruit and supply commercial customer services to large customers, such as animal demand retailers with shops, online shops, etc.

Also the sale to hotels, animal pensions etc. is suitable, as the dog beds can be made with a personalized company logo.

Warehousing is not required, as the goods will be shipped from the manufacturer to the end customer immediately after production.

Of course, the range of goods can be extended to include themed products in the area of dog accessories/animal requirements.
