Look for Corporate financing, investor **Nursing**

Search EK/mezzanine funders for investing in sustainable and human working outpatient care services and day care facilities.

The entrepreneur plans to set up an investment holding company in the area of care. By setting up digital structures and using synergy effects, small, single-acting care services are bundled under the umbrella of a management company. The founder (25J) is currently a fund manager with performance and management responsibilities in the smaller three-digit million range (fund company as trustee). Through intensive personal commitment, a maintenance service in the turnover size 1.5 million + is to be acquired in order to establish specialist departments at the holding level with this basis and to start further acquisitions.
