Offer Corporate participation, firm participation

Insurance broker

I was entrusted with running the ad as an intermediary.

The insurance broker focuses on the provision of insurance for private customers and medium-sized enterprises and has been in a good position on the market for more than 10 years. (+ 15 years of exclusivity at a well-known insurance company)

It is a company in the legal form of a limited liability company, run by a managing director, the shareholder sells its shares in percentage terms at 80%.

Everything else likes to be in a personal conversation.
