Trade two-wheeler / tricycle / four-wheeler

Search for capital/participation for the establishment of a nationwide wholesale trade especially for two- and tricycles.

The plan is to focus on e-mobility, although it may well be that vehicles with previously conventional propulsion are also offered.

Agreements already exist with European companies for exclusive sale for Germany. Distribution is to be carried out through specialist retailers, partly in selective distribution.

I have more than 30 years of sales experience in the automotive industry, especially two-wheelers, but I am also well versed in the entire automotive sector. As a result, there are already very good contacts in the industry.

Appropriate capital is required for the start.

There is also the possibility of a company participation/partnership.

The company is planned to set up in the medium and long term, it is not about "fast" money.
