Care services / day care

We are looking for outpatient care services and day care in Oberhausen, Mülheim an der Ruhr, Essen and Duisburg for purchase or as a partner.

Our company was founded in 1991.

Even after more than 20 years, we are committed to the values that have been associated with our name since that time.

As a modern service provider, our most important goal is to ensure that our customers are well catered for.

In doing so, we rely on a partnership between customers, payers and all other persons and institutions involved in the care.
