Offer Corporate sales, firm sales, sales **Retail / Online Shop**

Established shop for design in A-Location (incl. webshop) for sale

You always wanted to have your own shop, but without having to start all over again? Or are you looking for a second pillar in retail, but would you like to write black numbers from the outset? Then we have something for you here.

For family reasons, we offer our shop incl. connected webshop for sale.

We founded our company in and since then represent the most extensive selection of selected design products (bags, jewellery, interior design, paperwork, cosmetics, etc.). Over the past four years, we have built up a large network of suppliers and manufacturers that make our unique product range so special and are taken over during sales. In addition to our shop, we have teamed up with super press and temporary pop-up stores, among others.
