Offer Corporate sales, firm sales, sales **Online shop precious metals**

Profitable online precious metals trading with good growth prospects. Thanks to high automation, low personnel costs and low fixed costs. Average annual turnover: 510,000€

The online shop in the precious metals sector has been successfully selling gold, silver, platinum and palladium ingots since . It has a high proportion of regular customers, a good reputation and a return rate of 0%. The modern shop system with supplier connections developed exclusively for this shop is future-proof and offers numerous expansion possibilities.

Operations:

No storage space or own goods logistics is required. Also, there is no need to enter into advance payments for the purchase of goods. This usual and not inconsiderable business risk therefore does not exist. In addition, the current business design eliminates the complete return processing.
