All services

As a private investor, I am looking for a German limited liability company, gladly with a loss carry-forward, in order to raise a new business or to continue an existing one.

I am very familiar with the entire case law surrounding Section 8c of the KStG.

Please send me the following messages in your request:

- Industry and headquarters of the GmbH
- Foundation of the GmbH
- Amount loss carryforward
- To what extent still active?

I am only interested in my own future activity as a private investor and do not offer mediation to third parties.

[Corporate sales](#)

Region 28, Germany

Entry in own name
