

The big business marketplace

Business for sale more than 15 years

ID 21617

Look for Corporate participation, firm participation

Medical

Our company specializes in the manufacture of surgical instruments, especially for surgical implants. We are contract manufacturers with a state-of-the-art machinery. Validated process and GMP are a matter of course for us.

In addition, we develop instruments according to individual customer requirements, from prototyping to the final product.

With a partner, we want to expand our portfolio and service offering and open up new markets. Rooms are available. There is the possibility of a shareholding or acquisition.
