Offer Geschäftsidee, Geschäftsmodell

Installation service for kitchens and furniture

Do you have craftsmanship and knowledge and like to work with people? You might want to become self-employed or expand your business for a long time? But you still lack the sparkling idea?

With this simple but highly effective procedure, every man or woman who is gifted by craftsmanship can earn good money on an independent basis. A good income even - even with very small orders.

To test the procedure, I tried it myself. In the morning I started the rehearsal - and after less than 60 minutes I had the first job. And then I started to optimize the procedure. After barely a week, customer inquiries came by itself. Some questions I even had to answer negatively, because my calendar was well filled for the next time. And so it went on and on week after week.
