Offer Corporate sales, firm sales, sales **Entrepreneur**

Because of moving abroad, I sell my building cleaning company. The company was founded in 1983. Our services include maintenance cleaning. All customers are distributed in the area. For all customers there are current, very well calculated, contracts. The annual turnover is currently 170,000 €, - A drastic increase in sales is possible due to the offer of in addition to services such as carpet cleaning, glass cleaning. We had outsourced these tasks until now. However, all customers are willing to purchase these services directly through our company. permanent employees. Includes all machines, equipment. Very good online marketing performance. The owner is available at any time during the takeover phase. The owner will also pass on new business opportunities to the buyer after the sale.
