Concrete prefabricated parts

The target company sells precast concrete parts, which are manufactured in the company's own concrete plant. The focus is on prefabricated reinforced concrete parts for residential construction, in particular

- elevator shafts,
- balconies and loggias,
- Stair prefabricated parts,
- Entrances to the house and canopies.

The main focus is on serving customers in the new LÃ¤nder. In particular, the company is also benefiting from the booming Berlin housing market, which is likely to be characterised by great growth potential. The company has a stable customer and supplier structure. The transport connection of the concrete plant is very good. The production and storage area covers more than 100,000 sqm.
