## Woodworking

The business concept is aimed at carpenters /carpenters who want to become self-employed or are looking for a crisis-proof additional product.

We offer an optimal starter package with all important ingredients (brand, domains, developed products, intellectual property rights, address data, exclusive rights, special machines, equipment, calculation aids, manufacturing data (CAD, CNC), raw material, semi-finished products, finished goods \_\_\_\_ depending on budget) for a fast and successful market launch.

The price depends on the scope of the service package. This product is crisis-proof and an ideal complement for additional work tasks in a carpentry shop. With this package, the start into self-employment can also be implemented with a little courage and perseverance without any problems.
