Look for Corporate participation, firm participation

Recycling products

We, three retired chemists, have been building a company for the production of recyclable products in South Asia and sales in Europe for 12 months. In addition to the company's German headquarters, we are also setting up a branch in Asia. From 2021, the EU will ban a large number of single-use items. Our project is due to start in mid-2020 at the latest. We are looking for a partner with a financial contribution. more information with a personal contact with us in Berlin.
