Game / App

.

I'll be brief, I'm looking for someone who is involved in a card game/app.

The game, the app has an excellent marketing concept and is in the end on four independent sources of income.

- * the card game
- * the game app
- * the Instagram channel
- * the Youtube channel

If you are curious about the concept behind the great game, you can simply get in touch. I'm sure I can enchant them with a wonderful game, with an outstanding concept.
