Cereals and raw materials for the food and feed industry

For 2021 I am planning a flat warehouse with a logistics hall.

- Flat-rate warehouse for approx. 50,000 to

Handling warehouse consists of 2 halls, for cereals, raw materials,
Fertilizer and salt loose

- Logistics hall for 3,000 pallet spaces

With several docking ramps,
plant protection, seeds, farm and garden products,
online shop and several sales locations.

Compared to competition, we have a location advantage.

Regional and supra-regional farmers, trade, industry, public administrations and private customers are addressed.

Customers for cereals and raw materials:

- Flour mills, concentrate plants and industrial customers

The reason for my foundation is my professional career and the merger of two agricultural traders who, in an area of more than 120 km, act and determine the pricing policy.

Total investment: 8,500.
