Roasted coffee trade

Coffee start-up is looking for venture capital.

The aim is to build 2 brands that address different target groups with separate USP. Both brands offer value that make sense, soothe your conscience and are snuffed out with coffee.

Focus not on production, but on marketing, i.e. benefits and USP. It will therefore not be a roasting plant. We use wage roasting and private label, thus eliminating investment in production facilities.

Quality standards are premium, use of long-term drum roasting.

Capital requirements minimum 50k €, optimum 200k € for faster growth.

Capital

Region 20, Germany

Entry in own name
