Bicycle workshop

The workshop with connected sales room, offers its customers a professional bicycle repair of all brands and models. In addition, spare parts and bicycles are sold here. The company has been able to acquire a high level of awass since and currently has a solid customer base. Thanks to the optimal location, directly on a popular bike track near Isar, there is a high volume of running customers. By means of targeted advertising and an increase in awass, there is still sufficient potential for market expansion. The brand name can be taken over. The company is on a steady growth path in terms of sales and profit. Pre-tax profit is about 1/3 of sales. The company has no binding contracts with suppliers and can freely choose which spare parts can be purchased from which manufacturers.
