Offer Corporate follow-up, firm follow-up, follow-up **Dental Engineering (KFO) Laboratory**

Dental laboratory with focus on KFO

Successor wanted for reasons of age for an orthodontic laboratory with a unique selling point. The laboratory is state-of-the-art and has a solid, solid customer base. An extension to the entire dental area is possible spatially.

For 28 years I have been running this laboratory with a lot of commitment and passion and would very much like to hand it over into committed hands.

The long-standing customer base is well mixed and of a good future-proof age structure. My clients include clinics, orthodontists, oral, maxillofacial and facial surgeons, pediatric dentists and dentists. Partly from Munich and also Germany-wide.

The laboratory rooms are close to the centre with good infrastructural connections in Munich. They consist of 2 technical rooms, reception, office, meeting room and a social room.
