## Look for Corporate sales, firm sales, sales **Online Marketing Agency**

We are expanding our business unit into state-of-the-art online consulting and performance marketing and are looking for an online marketing agency to take over/participate or cooperate. With our method "The Digital Quantum Leap" we support self-employed and entrepreneurs in digitizing their business processes. We position ourselves as specialists in performance marketing and apply Facebook and Google AD's strategies in conjunction with corresponding funnels. We are a member of a mastermind of a well-known German marketing agency and thus have access to an expert network and extensive know-how. We expect a faster start-up and implementation from a participation, acquisition or cooperation. Our focus is on corporate development and sales & marketing. Ideally, the Agency has the qualifications in technical and graphic implementation.
