Offer Corporate sales, firm sales, sales **Bakery & Post Office**

I would like to sell my bakery, café and post office. I am in a nice quiet residential area near Central Station, industrial area is immediately away, so many businessmen are looking for a place at noon where they get something good for lunch. The post office is also known and has many customers. The reach of the customers is therefore available and is thus automatically taken over.

The inventory is to be transferred in fact (industrial oven, other equipment, electronic devices), whereby you are free to keep what you want to keep and what you want to hand over.

I am pleased to have serious contacts and hope that this offer will impress you, in the best case we will get into business, the offer is on a negotiation basis.

Guests are also welcome to visit the café.
