

The big business marketplace

Business for sale more than 15 years

ID 21953

Offer Geschäftsidee, Geschäftsmodell

Retail Online

As part of an asset deal, our absolutely innovative, new and unique business idea is to be sold. Ready to use.

The innovation lies in the fact that we can print components individually using a special process.

In the first step, we focused on the printing of shutters. Room doors, pallets, windows and tables will follow. You can upload your own images, logos and motifs to our design editor, or choose the right motif from a wide variety of images, photos and trademarks.

For personal/personal reasons, the business model is to be sold to a candidate who is familiar with online marketing, social media and/or software development. Also supplemented to a craft company of windows, roller shutters and sun protection industry possible.
