Offer Corporate sales, firm sales, sales

## **Wedding portal Onlineshop Dropshipping**

Wedding portal consisting of an online shop on a dropshipping basis, service providers and a classifieds market for private sales.

The website has been online since November, location-independent and has been operated part-time. The farm is also suitable for beginners.

The business model

In addition to the classic advantages such as no stock, an online shop based on dropshipping offers a great advantage, especially in the wedding industry: the products are individualised by the suppliers for newlyweds, which is very well received.

In addition, the portal consists of

- Offers from service providers
- Classifieds market (private sales of used decoration, etc.)
- Blog with currently 54 blog articles (SEO-oriented)

As a result, customer loyalty and referral rates are very high.

Providers & End Customers

Currently, around 700 offers from around 100 providers can be found on the portal.
