Look for Corporate follow-up, firm follow-up, follow-up

Control cabinet construction, automation

Our client is a successful provider of complete solutions in automation technology. The portfolio also includes measurement, control and control technology as well as low-voltage and control switchgear.

We are looking for a control cabinet construction in the field of low-voltage and/or medium-voltage systems.

The aim is to expand the product portfolio and the depth of production. By using mutual customer and supplier relationships, synergies can be very well exploited, so that both companies benefit from this.

A company in the Rhine-Main / Rhine-Neckar region would be offered, as there are some clients of our clients sitting here, who can be served with short distances.

The purchase parameters are:

Region

Hesse / Bavaria / Thuringia / BW / Rhine-Main / Rhine-Neckar

Employees

15

Sales

€ 1 million to € 7.5 million

Purchase price

€ 1 million to €3.5 million

[Succession](#)

Region 35, Germany
