

The big business marketplace

Business for sale more than 15 years

ID 22019

Look for Corporate participation, firm participation

Laser

Innovative company in the field of industrial laser technology is looking for investors for a silent or active participation in a high-tech company.

For 15 years we have been a developer and manufacturer of laser welding equipment and laser beam sources for industrial applications. With our modular concept, which can be individually adapted to the range of tasks, we are successfully operating worldwide.

- International sales partners and references available
- Sales potential approx. EUR 2-4 million

We are looking for potential investors and/or cooperation partners to support us in the realization of our new goals. A certain financing need is that we want to develop part of our portfolio and increase our market share profitably with a special strategy.
