Look for Corporate participation, firm participation

Metalworking Metal manufacturing

Investor seeks participation in metalworking " company participation in a small or medium-sized company

Offer the procurement of production machines

A metalworking company in the field of production / manufacturing is also looking for contract manufacturers and contract manufacturers. mechanical engineering / tool making for the purchase of active partnership.

Ideally, the company you are looking for has its own product. Companies with an international orientation. A young SME that can be expanded and needs more machines and competitors.

I would like to buy into a smaller & vital running company and actively participate.

No remediation cases.

My company participation is targeted within the framework of a qualified business start-up.

For the last few years I have been successfully working as a sales manager:

1. for contract manufacturers of the ADRIA region main focus on welding assemblies welding structures and tensioning technology.
