Look for Corporate financing, investor **Restaurant**

and a beautiful I am looking for my concept, a restaurant a financing. I have the ideas that could make the restaurant the meeting place in front of Munich for cyclists, athletes, and also families in the area.

Unfortunately, in the financial field, my hands are tied to make the big leap to independence.

Of course, a business plan is already in place, I look forward to a personal conversation.

With all the best regards
