

The big business marketplace

Business for sale more than 15 years

ID 22070

Look for Corporate financing, investor **Vehicle overpass**

We are a young up-and-coming company and have been on the market since. Our company has the field of activity of the transfer of new, leasing vehicles and leasing returners nationwide. VW and Audi are already our official partners BMW will soon be part of it. Our strong partner is the Bundeswehr. We have transferred 250 vehicles in a short time. Since the outbreak of the pandemic, our orders have gone back or failed. After a three-month forced break, we now want to start again and need short-term financing for the start. The financing is to run for a maximum of 6 months and will be paid back in a sum. We need the financing for some purchases such as Bahncard, fuel cards, etc. We also need to increase advertising so that we can continue to exist. Later we want a car rental reasons.
