Eco-fashion accessories from the heart of Europe to the whole world - we are looking for a partner.

The Czech-German company is looking for a strong partner for growth and the achievement of our goals.

We are engaged in the production of fashion accessories from natural materials in terms of sustainability and design. In 8 years, we have built up a broad network of partners around the world while gaining tens of thousands of customers.

As a brand, we were founded with the desire to produce products in the heart of Europe together with friends. Therefore, 100% of the products in the Czech Republic are manufactured in conjunction with suppliers of materials and components from Germany. We call ourselves "craftsmen's associations" because all our products are processed by hand and we work outside our own manufacturing workshops with dozens of craftsmen in Europe who offer us specific product phases.
