ID 22461

Look for Corporate participation, firm participation
Employment / Temporary Work

We are looking for small and medium-sized enterprises (SMEs) with at least EUR 750,000 turnover. We use a method known as a roll-up to bring SMEs together in the German-speaking countries and to unite them under the umbrella of a holding company listed in Germany (either cross-industry/diversified or sector-specific). This model is particularly suitable for efficient, well-run companies that want to take advantage of such a construct, but at the same time shy away from the high costs of listing their own stock exchange or would not meet the criteria.
We look forward to hearing from you. All contact requests will be kept strictly confidential and will not be passed on to unauthorized third parties.

Participation
Region 80, Germany
Entry in own name
