Look for Corporate follow-up, firm follow-up, follow-up

Machining

I am looking for a long-term participation in the company to jointly develop, modernize and competitively align the company.

I can offer the following:

- high motivation to create
- many years of experience in the environment of large companies in the field of machine engineering, industrial forklifttruck construction and medical technology
- Optimization of products while meeting cost targets
- contacts for the development and expansion of business potentials
- national and international supplier contacts in the field of machining (turning, milling, grinding), sheet metal working, sheet metal assemblies, welded assemblies, steel assemblies, coating (corrosion and wear), castings.

I am looking for business partners who want to build a reliable partnership, bringing their own structures to a more competitive level.
