Offer Geschäftsidee, Geschäftsmodell

Online shop for popular beauty product

We are looking for an active operator for our online shop in the field of beauty products, who has knowledge of social media (Facebook + Instagram) in order to be able to successfully implement advertising concepts. These are products that people have always used for a very long time.

The webshop is completely finished and is state-of-the-art. The logo and the name are registered in the trademark register and are therefore also part of the sale.

The revenue is slightly over 50% of turnover after deduction of purchases of goods and advertising and other costs.

We ourselves operate a wholesale business in the same market segment and would also supply you with the sales products for this webshop.

We have always sold these products as a promotional product to specific customer segments.

Purchase and acquisition:

You can take over the online shop and run it successfully with your activity.
