## **Shops and real estate**

I have been working successfully as a self-employed person for over 20 years with high profits. I need a loan of 1,000,000.00 to 2,000,000.00 euros for an expansion of my business. I could repay this in 1-2 years completely or on request in the long term. To be on the safe side, I can deposit some of my properties ( in rent ) as security. These correspond more min. According to the report, 2,000,000.00 euros. I am looking for one or more lenders for my project.
