Car trade

Well running car dealership for health and family reasons to sell or partners sought. Due to a serious illness of the owner we are unfortunately forced to sell the car dealership. In addition to office buildings and sanitary facilities, there is also a small apartment and its own workshop with storage. The workshop is fully equipped and ready for operation. The car dealership is located in a top location with perfect infrastructure. The complete stock in the office, workshop and warehouse can be taken over. The total monthly costs for land, office and workshop are very low. On average, 20-30 vehicles are sold per month. Fixed customer base available. Our sales figures are very good and can of course be presented in a personal conversation.

Please understand that we will only contact reputable interested parties.

Everything else can be discussed in a personal conversation.
