## **Organic ice cream factory, ice cream parlour**

To set up an organic ice cream parlour chain, we are looking for one or more partners who have the right structure.

Mentality, experience, capital.

We have the product, an ice cream of the absolute top class, which is second to none.

Organic quality, heavenly delicious, perhaps the best ice cream in the world (many vegan varieties)

We are established at 2 locations, want to build a new production hall and then expand in Baden-Württemberg, Switzerland, the rest of Germany, Europe. With own locations and franchisees (numerous interested parties).

We are looking for entrepreneurs with a success gene. Capital alone is not enough. Do you know how to set up a company in the best possible way and establish it into a successful brand? What are we waiting for?

Together we can take the market by storm and let our successful and well-proven concept shoot through the roof.

We look forward to getting to know each other soon.
