## **Building construction**

As a Bachelor of Engineering (B.Eng.) and master mason and concrete builder, I am currently employed as a construction manager in a larger company, but am now looking for a medium-sized construction company in which I can implement my personal ideas. For me, not only a takeover of the company, but also a (previous) employment in a responsible position, combined with a firmly agreed handover date, would be very well conceivable. The company should be located in the city or district of Osnabrück.

### Succession

Region 49, Germany

Entry in own name
